Kammen, Carol. *Encyclopedia of Local History*. American Association for State & Local History and AltiMira Press, 2000. How is local history thought about? How should it be approached? What is the context behind local events and institutions? Where does one start? Through brief, succinct notes and essay-length entries, the “Encyclopedia of Local History” presents ideas to consider, sources to use, historical fields and trends to explore. It also provides commentary on a number of subjects, including the everyday topics that most local historians encounter. Useful appendices provide information on ethnic groups, religious organizations, and immigration. A handy reference tool that no public historian’s desk should be without! Topics include: African-American history, agricultural history, almanacs, archives, biographical dictionaries, business history, census, children’s history, copyright, economic history, family, genealogy, government records, historic preservation, labor history, maps, obituaries, photography, regionalism, slang, state historical journals, tourism, toys, virtual shopping, zoos.

Over 450 illustrations

Scharf, J. Thomas. *History of Western Maryland, volume 2*, Philadelphia: Louis H. Everts, 1882. This is a monumental treatise on the history of the western-most portion of Maryland, the area now comprising the counties of Frederick, Washington, Allegany, Garrett, Montgomery, and Carroll. The first volume surveys the periods of the French and Indian War, the Revolution, and the War of 1812, giving lists of early soldiers, settlers, voters, and public officials, with supporting lists of marriages, patents and surveys, churches, and institutions. The latter half of Volume I and all of Volume II are devoted to historical and biographical sketches, which include considerable genealogical data, and are arranged by county and there under by district and neighborhood for purposes of convenience and optimum comprehensiveness. The biographies, of which there are hundreds, the narrative histories, and the extensive lists of people, places, and events, to say nothing of the exposition of lesser subjects, contrive to make this book an indispensable reference.
